Our Mission

WAPPOINT is South Africa's first truly mobile point of sale system. Whilst consumers carry less cash and fewer merchants accept cheques, WAPPOINT, as a leading mobile payment facility, allows the merchant to accept a credit card payment anywhere, anytime. This increases the merchants' probability of a sale and hence their turnover. WAPPOINT is founded on the belief that everyone should have equal opportunity when it comes to increasing their revenue stream and we are therefore trying to counter the discrimination which takes place in our marketplace, e.g. allowing only the large businesses access to credit card facilities. With WAPPOINT everyone has the same opportunity. We will therefore continue to enhance our products and services, making it simpler, faster and more user friendly whilst listening to and incorporating the multitude of suggestions from our valued clients.
